We built our reputation on providing our customers with the finest boiler room equipment and 24/7 service and parts availability.

Since 1949, B.J. Muirhead has provided unparalleled expertise within the industry delivering outstanding boiler room service and support across New York and Pennsylvania.

As your boiler room one-stop-shop, we are your partner to ensure your mechanical room is functioning efficient, reliably, safe and sustainable. From new application engineering and design build support to boiler upgrades and energy audits on existing equipment, we can maximize your plant's efficiency.

Our 24/7 support includes factory-trained technicians dispatched with fully stocked vehicles with critical components to get you back online quickly. Whether you have a boiler down or require a temporary need for steam or hot water supply, we can keep you on track with long or short-term boiler rental solutions.

EQUIPMENT FROM MANUFACTURERS WITH THE LATEST TECHNOLOGY

Total Boiler Room Solutions
Steam & Hot Water Boilers
(Commercial, Industrial Water-tube, Electric/Electrode Boilers)
Engineered Skid Systems
Burners, Economizers
Controls & Remote Monitoring
Alternate Fuel Capabilities

Steam Boilers
Engineered Skidded Systems
Vertical Tubeless Boilers
Electric Boilers
Water Heaters
Thermal Units

Boilers & Water Heaters
Commercial Boilers
Condensing & Non-Condensing
Semi-Instantaneous
Domestic Hot Water Heaters

Boilers & Accessories
Commercial Boilers
Condensing & Non-Condensing
Domestic Hot Water Boilers
Controls & Accessories
Hot Water Storage Tanks

Boiler Feedwater Equipment
Feedwater Heaters
Economizers
Retrofits
Transport Membrane
Condensers

Boiler Feedwater Equipment
Deaerators
Boiler Feed Systems
Surge Tanks
Oil Pumping
Critical Fuel Systems

Steam Generated Energy
Building Heat Process
Domestic Hot Water & Process
Steam to Steam Generation
Enclosures

Industrial Heat Pumps
Up to 50 MW
Heating & Cooling
Water temps up to 248 Deg. F
Waste Heat Recovery

Venting Solutions
AL29-4C Stainless Steel
Venting Systems
UL Listed
Single & Double Wall
Chimney Liners
Engineering & Design

Venting Solutions
Commercial/Industrial
Breechings and Stacks
UL Listed
Grease Ducts
Engine Exhaust
Engineering

Venting Solutions
Chimney Automation
Systems
Combustion Air Makeup
Systems
Modulating Draft Control
Commercial Dryer Venting

Venting Solutions
Boiler Exhaust
Chimney Liners
Special Gas Vents
Grease Ducts

Petroleum & Chemical Storage Tanks, ASME Vessels, Water Tanks & Water Filtration Systems.
Fireguard UL-2085
Aboveground Horizontal UL-142
Aboveground Vertical
Underground UL-58/1746
ASME Vessels
Specialty ASME Pressure Vessels
Water Tanks / Systems

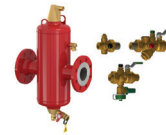

Engineered Piping Products
Metal Expansion Joints
Rubber Expansion Joints
Flexible Hose/Couplings
Air Vents/Strainers

Pumps
Commercial Pumps
Residential Pumps
Heat Exchangers
Air Separators
Expansion Tanks
Balance Valves
Controls & Automation
Packaged Systems
Pressure Boosters

Pumps
Commercial Pumps
Circulators
Pressure Boosters
Positive Displacement Pumps
Self-Priming Pumps
Condensate Pumps
Submersible Pumps

Hydronic Components
Air & Dirt Separators / Air Vents
Hydraulic Separators
ASME Expansion Tank
Pressure Step Deaerator
Autofill Valve
Dual Check Backflow Preventer
Coil Piping Packages
Manual Balance Valves
Automatic Flow Limiting Valves
Pressure Independent Control Valves

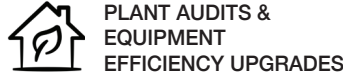

Flow meters
Vortex
Ultrasonic
Inline
Insertion
Electromagnetic

Our in-house professional engineers have experience in every aspect of today's steam and hydronic systems.

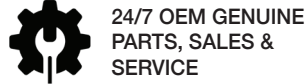

B.J. Muirhead is the partner you need to configure the right equipment for your application with the latest technology and energy-efficiency in mind.

- New or Existing Projects
- Fuel Conservation
- Analysis and Drawings

We have certified experts to perform boiler plant optimization evaluations that uncover energy-saving opportunities to improve your system and bottom line.

- Plant Evaluations with Documentation/Payback
- Energy-Saving Upgrades/Conversions
- Low NOx Expertise
- Emissions Testing
- Combustion Specialist
- Rebate Offers

With factory-trained and authorized service technicians, we have the capability to service any boiler make or model.

- 24/7 Emergency Service with Fully Stocked Service Vehicles
- Parts Store with OEM Parts and Safety Supplies for complete boiler room support
- Preventative Maintenance Agreements
- Customized Operator Training
- System Calibration and Troubleshooting
- Startup & Warranty Support

Steam, Hydronic and Domestic Hot Water portable generation systems completely mounted, wired, and piped with all electric, steam, hot water, fuel, and drain connections made on the outside of the trailer.

This allows ease of installation at the job site.

With 24/7 emergency availability, service, parts and support.
